

Precision Kitting

Every Sample Matters. *Every Detail Counts.*

In precision medicine, sample integrity at collection is critical. Without it, trials face delays, variability, and regulatory risk.

Precision for Medicine delivers custom kitting solutions that ensure:

- Accurate collection, labeling, and processing
- Full traceability and global regulatory compliance
- Seamless integration with your biomarker strategy

With expanded capacity, Precision scales with your trial while maintaining unmatched precision.

Why Precision for Medicine? The Precision Kitting Advantage

- **Custom Kits for Complex Trial Needs**
From biomarker-driven studies to first-in-human trials, our kits are designed to match your protocol requirements and ensure sample integrity.
- **Flexible Solutions**
Kitting that matches the needs of dose escalation or adaptive trial designs.
- **Automation + Expertise**
Efficient systems paired with hands-on oversight to anticipate and solve issues early.
- **Certified for Compliance**
GxP, CLIA, CAP, ISO 13485—full alignment across every phase of your study.
- **Global Reach, Local Know-How**
Worldwide infrastructure with regional expertise in logistics and regulation.
- **Real-Time Tracking**
24/7 visibility through our Lab e-Portal and trusted courier partnerships.

Results That Matter

Treatment-Ready Precision

Enabled timely, sterile collection and delivery of critical samples in trials where patients had no second chance.

Less Burden, Fewer Errors

Custom-labeled, pre-filled kits reduced site prep time and helped eliminate protocol deviations.

From First-in-Human to Phase II

Supported successful progression of complex trials by ensuring sample quality and regulatory compliance.

Solutions That Scale With You

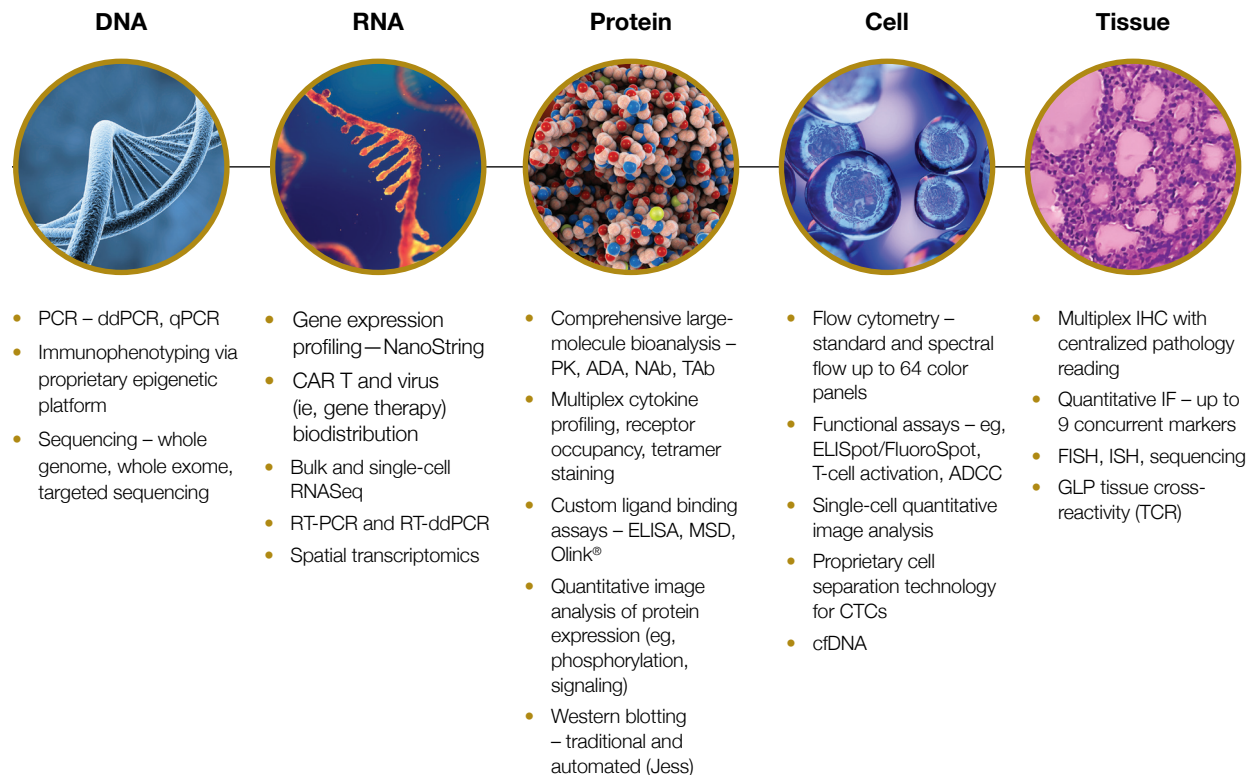

Accelerating therapeutic development from the late preclinical phase through commercialization

Precision for Medicine is the first clinical research services organization engineered to support life sciences companies in the use of biomarkers essential to targeting patient treatments more precisely and effectively. Combining deep scientific expertise, clinical trial excellence, and advanced approaches for data science, Precision accelerates therapeutic development from the late preclinical phase through commercialization.

- 6 specialty labs throughout North America and Europe
- Sample processing labs on 5 continents
- Central lab services, including custom kitting, logistics, processing, and storage
- Assays available under GxP, CLIA, CLSI, CAP, ISO 9001/13485

Comprehensive suite of technologies, capabilities, and proprietary approaches to interrogate any sample type
