

# Unify Your Biomarker Data Ecosystem

Get a 360° view of biomarker data across their entire lifecycle, linked to sample and clinical data in a connected ecosystem.

## Shorten Time From Data to Insights, Analytics, and Visualizations

- Dynamic Dashboards
- Assay-Specific Modules
- Data Checks

- Assay-Specific Quality Control Reports
- Analytics
- Visualizations

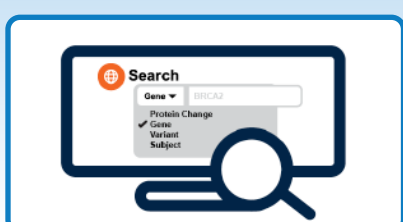

**Biomarker Intelligence**

Conversationally explore your biomarker data ecosystem with Agent Intelligence, powered by your Virtual Assistant

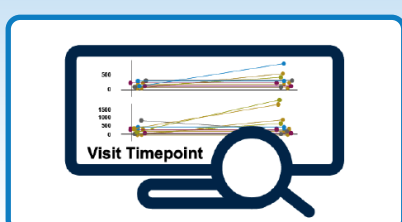

## Biomarker Intelligence Supports a Broad Set of Use Cases and Functions

### Translational Research

Discover and explore biomarker data across the enterprise and the entire portfolio of studies

### Translational Research

Explore and visualize biomarker and clinical data with a purpose-built user interface

### Data Science & Bioinformatics

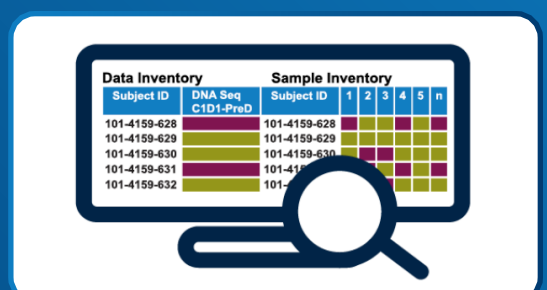

Create derived datasets via UI and API, either on demand or with templates

## Explore integrated sample and biomarker data for richer insights

Support the full precision medicine lifecycle -- get a 360° look across your clinical sample data ecosystem, from collection through long-term storage.

Learn how our Sample Intelligence capabilities facilitate decision-making:

**Visit [quartz.bio/sample-intelligence](https://quartz.bio/sample-intelligence)**

## Security & Compliance

- Fully validated platform
- Supports GDPR, 21 CFR part 11, GxP compliance
- SSO integration with client's IDP
- User access management, full audit trail
- Deployment, maintenance, and monitoring of all infrastructure
