

Unify Your Sample Data Ecosystem

Get a 360° view of clinical samples across the entire precision medicine lifecycle, from collection through long-term storage.

Real-time Biospecimen Management From Sites to Results

- Sample Collection Monitoring & Compliance
- Sample Testing & Stability Summaries
- Logistics: Sample Shipment Lists & Tracking
- Dynamic Dashboards & Enterprise Reporting

SI

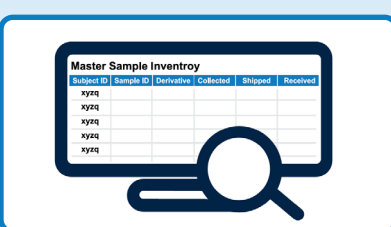

- Master Sample Inventory (MSI)
- Data Reconciliation Query Tracking
- Consent Tracking
- Data Checks

AI

Conversationally explore your sample data ecosystem with Agent Intelligence for sample operations

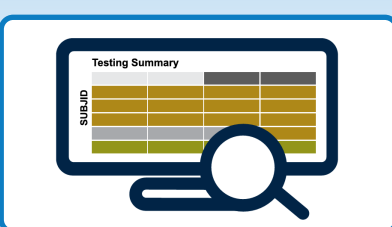

Sample Intelligence Supports a Broad Set of Use Cases and Functions

Biospecimen / Biomarker Operations

Comprehensive view of samples, harmonized from all lab sources and EDC

Translational Research

Centralized view of sample testing status across assays and labs

Clinical Operations

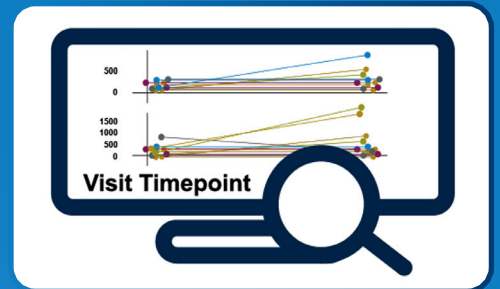

Ensure quality data and compliance with sample collections

Explore integrated sample and biomarker data for richer insights

Support the full precision medicine lifecycle with smart, automated integration of biomarker, sample, and clinical data.

Learn how our Biomarker Intelligence capabilities facilitate decision-making:

Visit quartz.bio/biomarker-intelligence

Security & Compliance

- Fully validated platform
- Supports GDPR, 21 CFR part 11, GxP compliance
- SSO integration with client's IDP
- User access management, full audit trail
- Deployment, maintenance, and monitoring of all infrastructure
